DETAILED ACTION

Election/Restrictions

Applicant's argument regarding the finality of the restriction is acknowledged but is not deemed to be persuasive. The Examiner maintains that, at present, examination of Group II requires an additional, separate search. Should the elected claims be found allowable, the Examiner will rejoin the claims of Group II for examination.

The requirement is still deemed proper and remains FINAL.

Claim Objections

Claims 1-6 and 10-12 remain objected to because of the following informalities: claims 1, 4 and 10 are each missing a method step. Specifically, claims 1 and 4 state “until shoot formation occurs, thus creating transformed plantlets.” Applicant must include a rooting step for a complete plantlet to be disclosed, as tissue cultures frequently produce unrooted shoots that are not complete plantlets. Similarly, Claim 10 refers to “proliferation” of leaf strips, which also does not clearly set forth a method step that results in an entire plantlet. Claims 2 and 3 depend from Claim 1; Claims 5 and 6 depend from Claim 4; and Claims 11 and 12 depend from Claim 10. Appropriate correction is required.

Claim Rejections - 35 USC § 102

This heading was included erroneously in the previous Office action; there are no 102 rejections.

Claim Rejections - 35 USC § 103

Applicant's arguments regarding Hallahan et al. are deemed to be persuasive. The rejection is withdrawn.

Allowable Subject Matter

Claims 2, 3, 6, 11, and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

No claim is allowed.

Response to Arguments

(1) Page 3, applicant argues that search of the product of Group II would necessarily include the method. Applicant elected Group I. Search of Group I does not necessarily include the product, particularly as the method steps disclosed in Groups I and II are not identical.

(2) Applicant declined to amend the claims in response to the Examiner's objection. The objection stands.

(3) Applicant's arguments regarding Hallahan et al. are persuasive. The rejection is dropped.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
